PERSONAL STATEMENT	<p>I am a recent graduate graphic designer from the Luleå University of Technology with a Bachelor's Degree. I have genuine passion for design, with a love for typography, shape, colour, form, space, exploration and experimentation. I strive to produce clean, simple, typographic designs with a strong focus on details. I like the variation of working with all aspects of print related designs like packaging, books and editorial, identity and concept development. I am currently searching for a studio position but are always looking for new challenges and interesting freelance work.</p> <p>Please feel free to contact me if you have any questions or ideas you would like to discuss.</p> —
EDUCATION	<p>2006-2009 Media Design / Bachelor Programme Luleå University of Technology, Sweden</p> <p>Bachelor of Science with a Major in Media Design. The education gave the chance to explore and work with different media, both physical- and digital design. The program is based on artistic grounds and gives you space to be creative, but at the same time includes the theoretical aspects. My focus were first and foremost on print related works.</p> <p>2001-2004 Mediaprogramet / Media Production Duveholmskolan, Sweden</p> <p>Basic education within media and communication. It touch many different areas such as advertising, journalism, photography, movie making and television production.</p> —
